COMBE MILL SOCIETY

OPERATION OF HISTORIC CLOCKS METHOD STATEMENT

CMS-MS-05/3

ms-05_v3.doc

1 General

- (a) The public shall not be permitted to touch the historic clocks.
- (b) Only competent Society members shall wind the clocks unless members of the public are given permission by the clock specialist.
- (c) Take note of the headroom hazard in the space beneath the clock hand drive shafts.
- (d) The area around the clocks shall be kept clear of obstruction at all times and regularly swept clean
- (e) Each month the weight ropes shall be inspected and replaced immediately if suspect.
- (f) Furniture to be arranged so that rotating clock hands cannot move into the path of visitors.

2 PPE

There are no specific PPE requirements for working with the historic clocks.
