

The voucher is only valid on the date of booking and is not transferable.

# Combe Mill Beam Engine Experience

## Congratulations

This voucher entitles you to a rare opportunity of a steam-powered Beam Engine driving experience.

You will help to raise steam and prepare the beam engine. Then you will learn how to start and stop the engine and about how it works. The sessions are only run on four Sundays each year and the sessions only take place if fully subscribed. In the event that not enough people sign-up we reserve the right to ask you to book another date for your session. See website for details.

We hope that you enjoy your treat.
